Please also note that data relating to the above-mentioned cryptocurrency presented here (such as its current live price) are based on third party sources. They are presented to you on an "as is" basis and for informational purposes only, without representation or warranty of any kind. Links provided to third-party sites are also not under Binance's control. Binance is not responsible for the reliability and accuracy of such third-party sites and their contents. Binance has grown more than 200 times in the past 5 years, multiplying its user base to more than 120 million people, supporting an active blockchain with over 2.4 billion transactions, and providing support to users in 18 languages. Needless to say, the platform is a pioneer in the crypto space and constantly strives to bring in growth and innovation sustainably and responsibly. This year Binance marked 5 years of its operation and opened its doors to users seeking a new crypto trading experience. The platform started with the fundamental vision of bringing financial empowerment to the masses with a simple and trustworthy marketplace for trading cryptocurrencies. Its commitment to the "user-first" approach shines through in all its actions and endeavors from Trust Wallet to Binance NFT and Binance Earn. Binance has also introduced many new features over the past year from Auto-Invest to Binance Live, Learn and Earn thereby catering to virtually any interest across the broad spectrum of what blockchain and crypto have to offer. Empowering through education and awareness While the crypto space has seen an influx in the number of new users, there is an alarming increase in the gap between the number of new users entering the marketplace and the number of users with a sufficient understanding of crypto and blockchain. Binance Academy, Learn and Earn, and Binance Masterclass has been a crucial part of the Binance ecosystem, educating and helping users in the space make more responsible and informed decisions. Rounddown of a range of products For many, Binance is synonymous with its exchange platform, which allows users to buy cryptocurrencies like BTC, ETH, and more with much ease. Even so, Binance has worked extensively since 2017 on expanding its product offerings. Some of the major highlights and achievements within the Binance ecosystem include: Binance Pay: Binance Pay has seen more than \$12 billion in total volume spanning 17 million transactions and 7000+ merchants. It has also recently partnered with Travala, Al-Futtaim, Primavera, and Splyt. BUSD: BUSD has established itself as one of the very few fully regulated, licensed, and fiat-backed stablecoins and is the second-largest regulated stablecoin in terms of its market cap. Binance Earn: Binance Earn offers a suite of products for users to grow their crypto holdings. The number of active users on the platform has grown from 3.7 million to 4.9 million between January and June 2022. The number of supported assets has also increased from 183 to 268. Binance NFT: With more than 6000,000+ active users weekly and 1 billion in total trading volume for IGO drops and 3 million gaming NFT listings Binance NFT has grown tremendously. It introduced a Mini App feature in April 2022 giving users a chance to access Binance NFT products and services seamlessly within the app. Binance Card: In the past 2 years, more than 1.7 million cards have been issued in the EEA region showing signs of strong user demand for the Binance Card. Additionally, the payment volumes have topped \$2 billion. Binance Charity: Binance Charity is the charity arm of Binance that has worked on notable campaigns like Code to Inspire, Women in Afghanistan, Crypto against COVID, and Tree Millions. It has more than 5000 total donations, 2,380,352 BTC raised, and 1.8 million beneficiaries. Building trust with regulation-focused initiatives Binance has acted as a responsible industry leader in its initiatives and efforts towards compliance with government and regulatory bodies around the world. The platform has proactively engaged with authorities and worked on getting regulatory approvals and registrations in Spain, Dubai, Abu Dhabi, Bahrain, and Italy. The crypto industry is still in its nascent stage and one of the biggest challenges is addressing the variance in regulatory standards around the world. Binance has worked on evolving and adapting to these standards and comparing and contrasting them to determine what works best. This constructive approach has helped the platform engage with regulators where licenses are available and ignite a conversation where the path to licensing is still not laid. Web 3 is still new to people around the world and Binance is aiming to be the gateway for users into this universe. This is being done by building connectivity, a connection with users that is simple and customized to their language and culture while also being compliant with their local laws. Binance's road ahead Binance sees the current market environment as an opportunity to build a base for the next industry growth phase where Web 3 has massive potential to transform lives. This vision is reflected in the products that they build. The products are secure, user-friendly, and affordable while bringing real and tangible user value. The platform continues to rely on the feedback and comments of its users while also cooperating with regulatory bodies that protect the industry and investors while enabling responsible innovation. For more information on Binance please check out their official website. Disclaimer: This is a paid post and should not be treated as news/advice. A. If you do not have a Binance account: i) Click [Sign up for an entity account] on the Binance homepage. ii) You can use your Email/Phone Number to register your entity account. iii) Enter the entity name, email, or phone number and create a secure password. Click [Create Entity Account]. Your password must contain at least 8 characters, including at least one uppercase letter and one number. If you've been referred by a friend to register on Binance, make sure to fill in their Referral ID. iv) You will receive a 6-digit verification code in your email or phone. Enter the code within 30 minutes and click [Submit]. v) You have successfully created an entity account. You will be automatically prompted to enable two-factor authentication (2FA). Choose [Phone Number Verification] or [Binance/Google Authenticator]. Then follow the instructions to set up. vi) After enabling 2FA, click [Verify Now] to start the Entity Verification. B. If you have an existing unverified Binance account: i) Click [Log In] on the Binance homepage. ii) Go to [Profile] and click [Verify Now] under [Complete Enterprise Verification]. Please note that if your email has already been linked to a Personal Account, it cannot be upgraded to an Entity Account. Please make sure that you submit the Entity Verification with an unverified account. 2.1 Click [Verify] to start. 2.2 Enter your [Entity Name] as displayed on the official corporate documents and answer the questions, including the registered country/region, the legal form, the entity type, etc. Please answer the questions carefully. If you would like to change the registered country/region, the legal form, or the entity type, you will be required to start the entity verification from the beginning. Before entering the verification process, you will also need to prepare the corporate documents shown on the checklist. The checklist will be displayed based on your registered country/region, the legal form, and the entity type. You might select [Print Full List] to print the checklist for reference. Note: The required corporate documents will be different based on your country/region, the legal form, and the entity type you choose. The following contents are examples only. Please refer to the list on the verification page. Basic Information Related Parties Upload Documents Fiat Enablement (optional) 3.1.1 Fill in the account information, including the Entity Name, Registration Number, Date of Incorporation, and click [Confirm]. 3.1.2 Fill in the Entity Address, including the Registered Address, Operating Business Address. 3.1.3 Fill in the Source Declaration, including the Source of Capital, Source of Wealth, Source of Funds. 3.1.4 Fill in the Additional Information, including the Nature of Business, Purpose of Application, Contact Number, Company Website (if any). 3.1.5 After completing the Basic Information section, click [Complete]. Please submit the following information to upgrade your account for fiat access: (The deposit/withdrawal limit may vary based on the documents you provide.) What are the sources of capital for your company? (e.g., capital injection from UBOs) Expected monthly fiat deposit/withdrawal volume (in EUR) Which fiat currencies do you intend to use? Source of wealth of the applying entity (eg. Financial statement, Annual Report) 8. What documents do you accept as Proof of Address? We accept the following address verification documents, issued within 90 days: Bank statements - with transaction history. We also accept digital bank statements. You can send us the original pdf file and cover the sensitive information, such as transaction details. Utility bills - such as electricity, water, fixed internet or phone bills, etc. We do not accept mobile phone bills and insurance letters. Government-issued documents - such as letters from government agencies, tax bills, etc. For more information, please refer to How to Verify My Residential Address on Binance. In the event that we require further clarification or documentation, you will receive an email from corporate-kyc@binance.com. Please provide the supplement document via email. 9. Which fiat currencies do Binance support for corporate users? Currently, we support USD, EUR, GBP, AUD, and BRL deposits and withdrawals for corporate users. However, EUR and GBP channels are closed at the moment until further notice. You can complete the Advanced Entity Verification first so that once the EUR/GBP channels are online, you can start using them immediately.

Dec 23, 2020 · If the highest or lowest grid is exceeded, no more positions will be opened. For example, if the current BTC/USD price is \$48,000, the user judges that the price will fall when it reaches above \$49,000, in this case, the upper price can be set to \$49,000. After the price reaches \$49,000, the grid will no longer open positions. Aug 05, 2021 · Here is the Ultimate Guide! ...
